Maine Bike Rally
Photography Instructions

Technical Information
- Please supply high resolution photos
- Please supply <u>unprocessed</u> digital image files
- We will have memory card readers and computers at the Rally, so plan to download the image files before you leave. You can make incremental downloads during the weekend, too.
- See Ken O'Brien, Ron Levere, or Kirk Kennedy to download image files.

Desired photos:

- Group shots of rides beginning
- Close-ups of riders posing with bikes, friends, etc. at the ride beginning and end
- Photos of riders with background of scenic areas, e.g. waterfront, mountain, city, train, etc.
- Campers setting up tents
- Volunteers checking people in
- Volunteers directing activities (parking, camping, ride assembly, etc.)
- Campsites, preferably showing people
- Photos of riders riding, show riders' faces where possible
- Photos of activities during special rides (train ride, garden rides, etc.)
- Shots during Expo activities (police demonstrations, navigation, etc.)
- Photos of entertainment (band, ice cream social, presenters)
- Photos of sponsors and their paraphernalia
- Photos of riders on the ride course, preferably a front or side view
- Photos during the meals
- Photos of club and vendor tables
- In general, any human interest photos which will convey the spirit and feelings of people involved in the rally, especially concentrating on bicycling activities.
- Lastly, use your imagination to determine what might be interesting or an unusual angle or vantage point.
